

106-44-10065

Stream: 106-44-10065

Watershed: Frontal Wrangell Narrows

USGS Quadrangle: Petersburg C-3

MTRS: C060S080E

Date Surveyed: June 2013

Findings: This stream's route differs from that illustrated in the AWC.

Recommendations: Update this stream's course to reflect its sinuosity in the AWC.

Nomination form submitted: Yes

Nomination Status:

Table 1. 106-44-10065 Survey Data

Waypoint	Latitude	Longitude	Notes	Sample Effort	Sample Results
752	56.6748	-132.917	Downstream of culvert near Papke's Landing Rd. Little water and flow. Tracking down.	0	0
753	56.67465	-132.925	Two 8 ' pieces of plywood are installed with four pipes across creek. This structure blocks all fish passage. There are 2 small gaps on each end which might allow fish to pass at high water.	0	0
754	56.67396	-132.928	Water intake. A small pool was created by making two rock dams within the stream. 1" PVC pipe is connected to a plastic container with screen mesh at the end.	0	0
755	56.67416	-132.93	Upstream side of culvert under Papke's Landing Rd. First visual on CO. Intake pipes (2) are still here going through the culvert.	VI	CO 35 mm
756	56.67418	-132.93	Downstream side of culvert. There is a corrugated metal culvert within a large baffled iron culvert. Tide comes up to here so we are done tracking.	0	0
